

“Know Your KEYS” Explanation

Piano Studio of Marci Pittman

The TWO black key group is the “dog house.”

The white key in between them is the D key – **D** as in **Dog**.

The white key to the left side of the dog house is a C key – **C** as in **Cat**.

The white key to the right side of the dog house is the E key where both the cat and dog like to eat (see the food bowl) – **E** as in **Eat**.

Wherever there’s a dog house there’s a people house.

The THREE black key group is the “people house.”

The white key to the right of the E Key is the front door to the people house - F as in **Front** door.

When we enter the people house by the front door, we enter the dining room where there is a bowl of grapes – G as in **Grapes**.

Next to the bowl of grapes on the dining table is a bowl of Apples – A as in **Apples**.

To leave the “people house,” we exit by the white key to the right of the group of three black keys or the Back door – B as in **Back** door.

That brings us back to the backyard where we find the “dog house.”
